

## [Edito]

New year,  
New board members  
and good resolutions!

Faced with all the emails  
that arrive every day in  
your inbox, ADocs  
decided to act and  
launched its newsletter!

Each month find the  
highlights and essential  
information of the  
association.

Enjoy !

## [What is 'ADocs' ?]

ADocs is the association of PhD students and young researchers of La Rochelle University. For 25 years, the association has been promoting meetings and exchanges between PhD students and young researchers from different fields. ADocs organises cultural, festive, sports activities and popularization of scientific projects. Among them, the "Festival du film [pas trop] scientifique", that is celebrating its 20<sup>th</sup> anniversary this year!

## [CJC - Young researchers confederation]

### - What is CJC ? -

The CJC is a multidisciplinary and national association from the 1901 law that includes several associations of PhD students and doctors without permanent jobs. In the European community, the CJC participates in discussions about the doctorate through the association EURODOC.

### - Recent achievements -

- The consideration of the doctoral contract as a "true" employment contract,
- The establishment of 22 files about the doctorate in the National Directory of Professional Certification,
- In January 2019, the CJC participated in a meeting against the increase of the inscription fees for foreign students.

### - How they do it -

- Expert reports and summary files,
- Press releases, interviews and public statements,
- National meetings.

For more information, please visit their website <https://cjc.jeunes-chercheurs.org> (also on Facebook and Twitter)
